This fully-updated edition of Knowledge Encyclopedia Dinosaur! is the perfect encyclopedia for children aged 9-12, ideal for inquisitive minds, covering over 60 prehistoric creatures, from the age of dinosaurs to the Ice Age. Jam-packed with fun facts about your favorite dinosaurs and lesser-known species, such as the Velociraptor having three large killer claws on each foot to hunt down prey, and the long-necked diplodocus stretching the length of three school buses, this dinosaur encyclopedia is a must-have volume for children. Explore, Discover And Learn! DK's Knowledge Encyclopedia Dinosaur! uncovers the marvels of our world in unprecedented detail and with stunning realism. Encompassing engaging facts about over 60 species of dinosaurs, including a closer look at dinosaur diversity, fossilization, and the new era of dinosaurs. With this incredible encyclopedia, you can spend quality time exploring the dynamic world of dinosaurs with your children, accompanied by impressive visuals to engage their senses. A must-have volume for curious kids with a thirst for knowledge, this enthralling encyclopedia is structured in such a way that your child can read a bit at a time, and feel comfortable to pause and ask questions. Doubling up as the perfect gift for young readers, who are always asking questions about the prehistoric world. At DK, we believe in the power of discovery. This thrilling kid's encyclopedia is part of the Knowledge Encyclopedia educational series. Celebrate your child's curiosity as they complete the collection and discover diverse facts about the world around them. Dive into the deep blue with Knowledge Encyclopedia Ocean! And hone your knowledge on how the human body works with Knowledge Encyclopedia Human Body! Whatever topic takes their fancy, there's an encyclopedia for everyone! Here is the ultimate identification guide for dinosaur enthusiasts, featuring more than 355 creatures, written by an acknowledged expert. A comprehensive introduction explains the Age of Dinosaurs and their classification and development. Fascinating anatomical drawings demonstrate their skeletal make-up, and the habitats in which they lived are depicted in evocative illustrations. The main section of the book is an encyclopedia of dinosaurs and prehistoric creatures, arranged according to type. Each entry contains a description of the creature's key identifying features, evolutionary adaptations and details of the fossil evidence. You've never seen a dinosaur book like this before! The Ultimate Dinosaur Encyclopedia is a whole new type of encyclopedia, developed in conjunction with cutting-edge 3D-art and science. Using groundbreaking recent research, palaeontologist Chris Barker recreates the world of prehistoric giants with photorealistic images more lifelike than any you've seen before. Use the free AR app to view the pages, and you'll see dinosaurs spring into life with stunning 3D. As well as learning about their appearance and behaviours, the app lets you see them as breathtaking life-size models. Selected pages even have video clips that seem to play right on the page. Short of hopping in a time machine, it's the best way to get close to these amazing animals. The book explores every era of prehistoric life, beginning with the origins of life in the world's oceans, moving to the first land-based vertebrates, and on to the reign of the dinosaurs and beyond. Based on only the most modern and authentic science, some familiar dinosaurs take on a whole new appearance. See these majestic creatures in their natural habitat, understand their parallels with modern animals, and learn everything about how they moved, ate, fought and hunted. This book is the most authoritative encyclopedia ever prepared on dinosaurs and dinosaur science. In addition to entries on specific animals such as Tyrannosaurus, Triceratops, and Velociraptor, the Encyclopedia of Dinosaurs covers reproduction, behavior, physiology, and extinction. The book is generously illustrated with many detailed drawings and

photographs, and includes color pictures and illustrations that feature interpretations of the best known and most important animals. All alphabetical entries are cross-referenced internally, as well as at the end of each entry. The Encyclopedia includes up-to-date references that encourage the reader to investigate personal interests. The most authoritative encyclopedia ever prepared on dinosaurs Includes many detailed drawings, photographs and illustrations in both color and black-and-white Contains comprehensively cross-referenced alphabetical entries with internal references, as well as references at the conclusion of each entry Provides in-depth references, allowing readers to pursue independent interests Includes sixteen plates and 35 color illustrations Part of the series of award-winning, best-selling DK encyclopedias for children, this title has been completely revised to provide a comprehensive visual exploration of the entire range of prehistoric animal life.

Dinosaurs: a children's encyclopedia is not simply a catalogue of facts and photos - it is a visual celebration of the history of all life on Earth, with a special focus on dinosaurs. More than 100 dinosaur species are featured, many illustrated with brand new artworks, exclusive to DK. The new images vividly reflect the very latest research into what these prehistoric creatures looked like, including thrilling new discoveries about feathered dinosaurs. Previous edition: 9781405367684

Are you curious about fossils, dinosaurs, and prehistoric life? Then dig into this stunning children's encyclopedia. This fully revised edition of Knowledge Encyclopedia: Dinosaur! is loaded with fascinating facts. Did you know that Velociraptor had three large "killer claws" on each foot to hunt down prey? Or that the long-necked Diplodocus was as long as three school buses? Would you believe that Carcharodon megalodon was an ocean monster with a fearsome bite at least six times stronger than today's great white shark? This dinosaur book for kids reveals more than 60 prehistoric creatures, from the age of the dinosaurs to the most recent Ice Age. From the flying Pterodactylus and ferocious Tyrannosaurus to the gigantic snake Titanoboa and magnificent woolly mammoth, this big book gets you up close and personal with these amazing animals. Rex, with more than 600 dinosaur stickers for kids to enjoy! Every page of this book is filled with dinosaur related activities, quizzes and interesting dinosaur facts. Hunt for stickers, learn about all of the creatures that roamed the Earth millions of years ago and create amazing prehistoric scenes. Take a trip back in time with the Dinosaurs Sticker Encyclopedia, the perfect gift for every budding paleontologist! An award-winning encyclopedia written for young people—dubbed the "Dinosaur Bible" by enthusiasts! Written by one of the world's foremost experts on dinosaurs, this award-winning title—honored by the NSTA and the AAAS—is an essential addition to any dinophile's library, regardless of age! Using casual language aimed at young people and non-scientists, it's a guide to all aspects of dinosaur science: how we figure out what dinosaurs looked like, how they lived, how they evolved, how they continue to live among us as birds, and much, much more. It also includes brief entries on all 800+ "named" species of Mesozoic dinosaurs, as well as sidebars by 33 world-famous paleontologists—among them Robert T. Bakker, Jack Horner, Mark Norell, Scott Sampson, and Philip Currie. With 428-pages of lavish, museum-quality illustrations, and an exhaustive Web site maintained by the author of supplemental chapter updates, this the perfect gift that will educate AND entertain for many, many, MANY hours! (And if that isn't enough, the jacket has a spectacular poster printed on the inside.) "Written in a casual language both young and adult paleo-nerds will find readable and enjoyable, this volume is seen as the "Dinosaur Bible" by many enthusiasts of the subject, for its sheer completeness and scienciness." —tvtropes.org Explore the prehistoric world with this first reference for young dinosaur lovers - now in paperback Help your child meet their favourite dinosaurs face-to-face. They'll discover where they came from, how they lived and what happened to them as well as interesting facts including which dinosaurs used their tail like a club and who had a brain the size of a ping-pong ball. Packed with bite-sized facts, curiosity quizzes and special 'turn-and-learn' features kids love getting their teeth into, there's lots to see and explore. Perfect for homework or just for fun. Go ahead; let your child take a stomp into the prehistoric world! A detailed examination of the world of dinosaurs, their appearance, behavior, and families, describing current theories about their extinction and explaining how paleontologists study their fossilized remains. Go back in time with First Dinosaur Encyclopedia. A delightful first reference book about dinosaurs for young paleontologists, this updated edition of First Dinosaur Encyclopedia takes readers on a journey to the prehistoric world of dinosaurs. Find out everything there is to know about T. rexes and triceratops, see different dinosaur habitats, learn amazing facts, and get close to modern-day fossils. Children can test their dinosaur knowledge with quizzes, including a "Where in the World" map quiz that places dinosaurs in the right locations. Packed full of engaging photography and easy-to-follow text, First Dinosaur Encyclopedia brings history to life.
