**The Survival Kit for the Elementary School Principal** May 24 2022 For the new and veteran elementary school principal, here is a unique "survival

kit" packed with tested advice, practical guidelines, and ready-to-use materials for all aspects of your job. From the perspective of an author with twenty-five years experience, this book offers techniques such as creating a school vision, building and sustaining morale, utilizing technology, and long-term, strategic school planning. The included companion CD-ROM serves as the perfect enhancement to this book. This time saving device contains all of the book's forms, checklists and letters for easy print out and use.

**Nuclear Science Abstracts** Jun 12 2021 NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976, pre-dating the prestigious INIS database, which began in 1970. NSA existed as a printed product (Volumes 1-33) initially, created by DOE's predecessor, the U.S. Atomic Energy Commission (AEC). NSA includes citations to scientific and technical reports from the AEC, the U.S. Energy Research and Development Administration and its contractors, plus other agencies and international organizations, universities, and industrial and research organizations. References to books, conference proceedings, papers, patents, dissertations, engineering drawings, and journal articles from worldwide sources are also included. Abstracts and full text are provided if available.

My Children! My Africa! (TCG Edition) Aug 15 2021 The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

**DBASE - From the Dot Prompt** Nov 29 2022 This is an introduction to systems programming using dBASE IV as a first programming language. The author uses dBASE IV (version 1.1 or 1.5) because it is the easiest language to learn initially, and applications can be up and running more easily and quickly. This textbook is very easy to use. The results of commands are shown on monitor screens illustrated in the text. Page two begins the creation of a data base with immediate interaction with the computer. Students know exactly what they are doing because of the clear and concise explanations and because they have a view of their screens in the text. If the student's screen does not match, he or she can just backtrack. Little backtracking will be necessary because the language is so exact. The text is self-teaching.
