PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. Your All-in-One Guide to the Digital World KEY FEATURES ? Includes basic concepts about computer hardware and software, device connections, and the Internet. ? Solutions on how to get the most out of emails, office suites, photos, videos, and maps. ? Insights on social media, e-commerce, digital payments, and online booking. DESCRIPTION Technology touches our lives in many different ways. In this book, we will explore the common uses of technology in the world around you, demystify the concepts, and explain its usage. The book begins by making you comfortable with your Windows PC and Android Smartphone/Tablet. It discusses the Internet and common device connections. It also delves into popular productivity applications like emails, documents, spreadsheets, presentations, maps, photos, music, and videos. Usage of free apps from Google is demonstrated. The book also talks about social media and online tools which allow you to connect and communicate with people on the Internet, with examples from Facebook, Twitter, Instagram, and WhatsApp. The different facets of e-commerce are discussed as well, namely, payments, online shopping, tracking, reviews, and online travel booking, along with examples from popular shopping and travel websites. It explores newer trends like cloud computing, media players, and voice assistants. Security and privacy best practices are also covered for each topic. This book is an attempt to break down the barriers that stand between you and the digital world and enable you to embrace technology. By the end of this book, you'll find yourself more tech-savvy than you were when you started. WHAT YOU WILL LEARN ? Day-to-day tasks on your Windows PC, Android Smartphone, and the Internet. ? Usage of popular Google services, including Gmail, docs suite, and YouTube. ? Usage of Facebook, Twitter, Instagram, Hangouts, and WhatsApp. ? Learn how to shop, pay and book flights, hotels, buses, and trains online. ? Learn about Media Players and usage of Google Assistant. ? Stay secure with best practices for your devices and the internet. WHO THIS BOOK IS FOR This book is for students, parents, kids, senior citizens, housewives, and any person who wants to get acquainted with the essential skills for the digital era and wants to become comfortable with technology, smart devices, and internet applications. To get the best out of this book, you must have either a Windows 10 PC or an Android Smartphone/Tablet, and stable Internet access. TABLE OF CONTENTS Preface 1. Your Smartphone/Tablet 2. Your Computer/Laptop 3. The Internet 4. Connections 5. E-mail 6. Photos 7. Music and Videos 8. Productivity Apps 9. Maps 10. Social Media 11. Online Communication 12. WhatsApp 13. Money and Payments 14. Managing your Privacy 15. Reviews 16. E-commerce 17. Booking Travel Online 18. Beyond your PC and Smartphone Summing it up This tenth edition is a technology update intended to bring Computers abreast with a rampaging technology. About six Internet years pass in one real-time year, the elapsed time since the last edition. The tenth edition retains the same familiar look and feel as the ninth edition. However, it contains hundreds of changes needed to ensure that Long continues to be the most current introductory IT book available. Includes over 150 new or updated images that reflect the latest releases and innovations in software. Numerous new photos show new hardware and applications. Throughout the book, capacities and speeds for communications hardware, disks, RAM, processors, printers, and so on have been adjusted to reflect the state of the art. Provides essential information on hardware, Windows, and networking procedures, and on word processing, e-mail, and browser software. Expanded presentation of ethics; additional coverage of the Internet; and a new IT Illustrated section on careers gives readers an in-depth look at career opportunities for IT specialists and for IT-competent people. For anyone who wants to advance their personal computing experience and skills, and individuals considering careers as IT specialists. PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. This volume contains the proceedings of the 21st international conference on the Foundations of Software Technology and Theoretical Computer Science (FSTTCS 2001), organized under the auspices of the Indian Association for Research in Computing Science (IARCS). This year's conference attracted 73 submissions from 20 countries. Each submission was reviewed by at least three independent referees. In a departure from previous conferences, the final selection of the papers making up the program was done through an electronic discussion spanning two weeks, without a physical meeting of the Program Committee (PC). Since the PC of FSTTCS is distributed across the globe, it is very difficult to fix a meeting whose time and venue is convenient for a substantial fraction of the PC. Given this, it was felt that an electronic discussion would enable all members to participate on a more equal footing in the final selection. All reviews, scores, and comments were posted on a secure website, with a mechanism for making updates and automatically sending notifications by email to relevant members of the PC. All PC members participated actively in the discussion. The general feedback on the arrangement was very positive, so we hope to continue this in future years. We had invited speakers this year: Eric Allender, Sanjeev Arora, David Harel, Colin Stirling, and Uri Zwick. We thank them for having readily accepted our invitation to talk at the conference and for providing abstracts (and even full papers) for the proceedings.
