The Routledge Companion to Art and Politics Sep 03 2020 *The Routledge Companion to Art and Politics* offers a thorough examination of the complex relationship between art and politics, and the many forms and approaches the engagement between them can take. The contributors - a diverse assembly of artists, activists, scholars from around the world – discuss and demonstrate ways of making art and politics legible and salient in the world. As such the 32 chapters in this volume reflect on performing and visual arts; music, film and new media; as well as covering social practice, community-based work, conceptual, interventionist and movement affiliated forms. The Companion is divided into four distinct parts: Conceptual Cartographies Institutional Materialities Modalities of Practice Making Publics Randy Martin has assembled a collection that ensures that readers will come away with a wider view of what can count as art and politics; where they might find it; and how it moves in the world. The diversity of perspectives is at once challenging and fortifying to those who might dismiss political art on the one hand as not making sufficient difference and on the other to those embracing it but seeking a means to elaborate the significance that it can make in the world. *The Routledge Companion to Art and Politics* brings together a range of issues and approaches and encourages critical and creative thinking about how art is produced, perceived, and received.

Christianity's Dangerous Idea Feb 18 2022 Today many in Hollywood and the media have declared open warfare on the family, education, and Christianity in general. Intellectuals have labeled religion, particularly Christianity, as mere wish fulfillment or a virus of the mind, something to be eradicated at all costs. In *Christianity's Dangerous Idea*, Jonas Alexis picks up where he left off in his previous books and continues to examine the ideological fallacies that have been fabricated in order to attack Christianity and the people who promote those fallacies. This latest book is a tour de force of rigorous logic and testable evidence for the Christian worldview from history, science, experience, common sense, and final destiny. More importantly, Alexis subjects the rivals of Christianity to the same rigorous testing. *Christianity's Dangerous Idea* clearly demonstrates the destructive nature of popular atheistic and anti-Christian philosophies, spread throughout Western culture by such famous people as Friedrich Nietzsche, Sigmund Freud, Carl Jung, David Cronenberg, Steven Spielberg, Alan Moore, William S. Burroughs, Philip K. Dick, Bruce Lee, Ayn Rand, Bart D. Ehrman, Richard Dawkins, and many more. In a scholarly yet readable fashion, Alexis shows that what the ancient Greeks often referred to as "the cult of Dionysus" has become mainstream in our modern age.

Charter Schools and Their Enemies Aug 15 2021 Winner of the 2021 Hayek Book Prize A leading conservative intellectual defends charter schools against the teachers' unions, politicians, and liberal educators who threaten to dismantle their success. The black-white educational achievement gap -- so much discussed for so many years -- has already been closed by black students attending New York City's charter schools. This might be expected to be welcome news. But it has been very unwelcome news in traditional public schools whose students are transferring to charter schools. A backlash against charter schools has been led by teachers unions, politicians and others -- not only in New York but across the country. If those attacks succeed, the biggest losers will be minority youngsters for whom a quality education is their biggest chance for a better life.

Moral Freedom Nov 17 2021 Focusing on the traditional virtues of loyalty, honesty, self-restraint, and forgiveness, Wolfe (religion and American public life, Boston College) describes the state of contemporary moral thinking in the United States. He describes the struggle for individuals to forge a moral life without guidance from strict conventions. He considers the prevalent attitudes of eight American communities: from San Francisco's Castro district to the small-town environs of Tipton, Iowa, from Lackland Air Force Base to Fall River, Massachusetts. The cover shows the subtitle as *The search for virtue in a world of choice*, while the title page (and Library of Congress) cataloguing show *The impossible idea that defines the way we live now*. c. Book News Inc. *It's Not About Grit* May 24 2022 Speaking out against decades of injustice and challenging deficit perceptions of young learners and their families, *It's Not About Grit* pulls back the veil, revealing the social systems that marginalize and stigmatize mostly poor, urban students of color and their communities. At the same time, author Steven Goodman, founding executive director of NYC's highly acclaimed Educational Video Center (EVC) for nearly 35 years, shows the tremendous intelligence, resilience, and sense of agency of these students. Through the students' in-school and out-of-school experiences, enhanced with a curriculum guide and award-winning video clips from EVC, Goodman encourages educators to make a difference and demonstrates how to create a safe and inclusive school climate where their teaching responds to students' culture, race, gender, sexual orientation, language, housing status, and ability. Teachers will use this book to develop a pedagogy of transformative teaching. "To those of you who are educators, teaching in 'revolting times,' under difficult circumstances, working with students who need you as much as ever, this book is a gift and a life raft." —From the Foreword by Michelle Fine, distinguished professor at the Graduate Center, CUNY "This is a vivid and arresting answer to a newly cultish fashion . . . a terrific book and badly needed at this time when 'grit' has become the magic word in pedagogic thinking about inner-city kids." —Jonathan Kozol, education activist and bestselling author "This book reads like an absorbing documentary; these are stories that need a public response to match the work of EVC." —Deborah Meier, education reform leader "Nobody knows better than Steve Goodman how to help young people tell their stories and, in the process, empower themselves with research and video skills and an activist sense of justice." —Joseph P. McDonald, professor emeritus, New York University

The Principal'S Office Oct 29 2022 **THE PRINCIPALS OFFICE** is a story with an inside view of public education through the vantage point of a high school principal. The author catapults the reader from life in public schools in the seventies to present day at an alternative school for kids at risk, not only for academic failure, but for sex, drugs, violence and abuse. Throughout this story, the reader will come to know the students, teachers, administrators, Board members and parents and the oftentimes dysfunctional, self-serving agendas which impact student success or failure as well as the viability of the public school system.

Our Town Jul 26 2022 "This book is both an inspiring account of public interest law at its best and a sobering assessment of how 'the soul of suburbia' continues to resist social justice. . . . an unexpectedly moving account of hope, idealism, and intelligence." --*The New York Times Book Review* "A well-written, exhaustively researched account of the legal battle to open New Jersey's suburbs to the poor . . . The authors actually took the time to talk to the lawyers and litigants on both sides of the controversy. Their chronicle of the legal developments is informed, and much improved, by the flesh-and-blood stories of those who actually lived the case. . . . a cautionary and inspiring tale." --*The Philadelphia Inquirer* "The authors of *Our Town* in particular enable readers to see historical continuity in legal and popular discussions of race, realism, and housing patterns in American society. *Our Town* also explores the challenges to public policy raised by the existence of residential segregation patterns." --*The Nation* "This book] is valuable both as a case study of judicial activism and its consequences and as a detailed analysis of suburban attitudes regarding race, class, and property." --*Urban Affairs Review*

Our Separate Ways Aug 03 2020 In an in-depth community study of women in the civil rights movement, Christina Greene examines how several generations of black and white women, low-income as well as more affluent, shaped the struggle for black freedom in Durham, North Carolina. In the city long known as "the capital of the black middle class," Greene finds that, in fact, low-income African American women were the sustaining force for change. Greene demonstrates that women activists frequently were more organized, more militant, and more numerous than their male counterparts. They brought new approaches and strategies to protest, leadership, and racial politics. Arguing that race was not automatically a unifying force, Greene sheds new light on the class and gender fault lines within Durham's black community. While middle-class black leaders cautiously negotiated with whites in the boardroom, low-income black women were coordinating direct action in hair salons and neighborhood meetings. Greene's analysis challenges scholars and activists to rethink the contours of grassroots activism in the struggle for racial and economic justice in postwar America. She provides fresh insight into the changing nature of southern white liberalism and interracial alliances, the desegregation of schools and public accommodations, and the battle to end employment discrimination and urban poverty.

The Shame of the Nation Jan 20 2022 Since the early 1980s, when the federal courts began dismantling the landmark ruling in *Brown v. Board of Education*, segregation of black children has reverted to its highest level since 1968. In many inner-city schools, a stick-and-carrot method of behavioral control traditionally used in prisons is now used with students. Meanwhile, as high-stakes testing takes on pathological and punitive dimensions, liberal education has been increasingly replaced by culturally barren and robotic methods of instruction that would be rejected out of hand by schools that serve the mainstream of society. Filled with the passionate voices of children, principals, and teachers, and some of the most revered leaders in the black community, *The Shame of the Nation* pays tribute to those undefeated educators who persist against the odds, but directly challenges the chilling practices now being forced upon our urban systems. In their place, Kozol offers a humane, dramatic challenge to our nation to fulfill at last the promise made some 50 years ago to all our youngest citizens.

Addicted to Reform Jun 24 2022 The prize-winning PBS correspondent's provocative antidote to America's misguided approaches to K-12 school reform During an illustrious four-decade career at NPR and PBS, John Merrow—winner of the George Polk Award, the Peabody Award, and the McGraw Prize—reported from every state in the union, as well as from dozens of countries, on everything from the rise of district-wide cheating scandals and the corporate greed driving an ADD epidemic to teacher-training controversies and America's obsession with standardized testing.

Along the way, he taught in a high school, at a historically black college, and at a federal penitentiary. Now, the revered education correspondent of PBS NewsHour distills his best thinking on education into a twelve-step approach to fixing a K–12 system that Merrow describes as being “addicted to reform” but unwilling to address the real issue: American public schools are ill-equipped to prepare young people for the challenges of the twenty-first century. This insightful book looks at how to turn digital natives into digital citizens and why it should be harder to become a teacher but easier to be one. Merrow offers smart, essential chapters—including “Measure What Matters,” and “Embrace Teachers”—that reflect his countless hours spent covering classrooms as well as corridors of power. His signature candid style of reportage comes to life as he shares lively anecdotes, schoolyard tales, and memories that are at once instructive and endearing. Addicted to Reform is written with the kind of passionate concern that could come only from a lifetime devoted to the people and places that constitute the foundation of our nation. It is a “big book” that forms an astute and urgent blueprint for providing a quality education to every American child.

The Global Achievement Gap Apr 22 2022 Bestselling education expert Tony Wagner's groundbreaking manifesto on how to reform our schools and educate our children for the twenty-first century global economy In *The Global Achievement Gap*, education expert Tony Wagner situates our school problems in the larger context of the demands of the global knowledge economy. He illustrates that even in our best schools, we don't teach or test the skills that matter most for the twenty-first century. Uncovering what motivates today's generation to excel in school and the workplace, Wagner explores new models of schools that are inspiring students to solve tough problems and communicate at high levels. An education manifesto for the 21st century, *The Global Achievement Gap* is a must-read for anyone interested in seeing our young people achieve their full potential, while contributing to a strong economy and vibrant democracy.

The Leadership Imagination Jul 14 2021 The field of leadership studies needs theory and research techniques that balance conventional science with the arts and humanities in order to capture leadership's moral dimension. Borrowing from Aristotle's account of the three types of knowledge, the author argues that leadership is an in-between form that combines craft-based skill with theoretical knowledge adapted for a specific situation's unique characteristics. The book discusses three sociology traditions and a distinctive variety of the history of religions while synthesizing their core premises. The resulting hybrid enables leadership analysis that emphasizes power dynamics cloaked in quasi-mythic discourse. The author labels this perspective the “leadership imagination”, and its mode of analysis “taxonomic leadership analysis”. The book includes methodological tips on how to construct such analysis and two case study chapters that exemplify it. While the example analyses concern leadership issues at the national and international levels, the approach works equally well with individual organizations. LaMagdeleine's non-conventional approach to leadership and management makes this an enlightening study for graduate students in leadership and business programs, and provides new analytic tools for students and faculty conducting research in business ethics and policy studies.

Extraordinary Politics Sep 15 2021 Political protest and social movements their history; their cyclical development; their organization, strategies, and tactics constitute what Charles Euchner calls extraordinary politics, an antidote to the breakdown of politics-as-usual and a necessary, if not sufficient, condition of democracy. Activists have set the pace on every conceivable issue, including the environment, gay rights, feminism, abortion, states rights, religion, and multiculturalism. The president and Congress can barely keep up, but extraordinary politics keeps evolving. With style and grace, the author weaves together hundreds of examples drawn from movements spanning the ideological spectrum to offer both a practical and intellectual guidebook to political activism in a reputedly apathetic age, embracing with abandon the art of making a difference. }When dissidents and activists toppled powerful regimes across the globe in the 1980s and 1990s from the Soviet Union to South Africa, from Nicaragua to the Philippines how did Americans respond to challenges in their own country? The conventional wisdom is that Americans sullenly withdrew from all manner of political action. But in fact, activists of all backgrounds took to the streets to challenge ordinary structures of politics. These movements their history; their cyclical development; their organization, strategies, and tactics constitute what the author calls extraordinary politics. Activists have set the pace on every conceivable issue, including the environment, gay rights, feminism, abortion, states rights, religion, and multiculturalism. The president and Congress can barely keep up, but extraordinary politics keeps evolving. With style and grace, Charles Euchner weaves together hundreds of examples drawn from movements spanning the ideological spectrum to offer both a practical and intellectual guidebook to political activism in a reputedly apathetic age, embracing with abandon the art of making a difference. }

Transformations of Capitalism May 12 2021 From Shakespeare's gender-bending play *Twelfth Night* to the the critically-acclaimed Broadway hit *Angels in America*, from 17th century kabuki theater of Japan—performed by cross-dressing prostitutes—to the NEA-denounced performance art of Holly Hughes, theater has long been—as co-editor Alisa Solomon terms it—the queerest art. *The Queerest Art* is a pioneering collection of essays by and conversations among a diverse range of leading theater academics and artists. The first anthology to bring scholars and makers of queer theater into direct dialogue, the volume explores such subjects as same-sex desire in Restoration comedy, the racialized impact of colonial Shakespeare, the *cuero politizado* of a performance artist in contemporary Los Angeles, and the nitty-gritty of getting a queer show presented in Peoria. *The Queerest Art* rereads the history of performance as a celebration and critique of dissident sexualities, exploring the politics of pleasure and the pleasure of politics that drive the theater. Lively and accessible, *The Queerest Art* will be useful to scholars, students, artists, and theater-goers alike interested in what makes queer theater . . . and what makes theater queer. Contributors include: Jill Dolan, Brian Freeman, Randy Gener, George E. Haggerty, Holly Hughes, Ania Loomba, Tim Miller, José Esteban Muñoz, Deb Parks-Satterfield, Lola Pashalinski, Everett Quinton, David Román, David Savran, Laurence Senelick, Don Shewey, Carmelita Tropicana, Valerie Traub, Paula Vogel, Doric Wilson, and Stacy Wolf.

Urban America: Conflict and Change Nov 25 2019

Alexis Rockman Nov 29 2022 Edited by Michael Rush. Text by Helen Molesworth, Brett Litman.

All Our Children Dec 31 2022 The church understands community as unity in diversity: Paul's vision of the Body of Christ as a physical body, with all parts welcomed and honored as parts of the whole, is an image of community as revolutionary in our day as it was in first century Rome. And the church's call to act in the world, to be Christ's hands and heart for healing and reconciliation, hope and justice, gives it a unique role in the national movement to combat education inequity, a movement grounded in education research, community organizing, and community-based organizations. *All Our Children* offers a variety of stories witnessing the power of real partnerships between faith communities and public schools that create, nurture, and grow relationships, while transforming lives and communities, churches and schools, for healing, liberating action, and resurrection. The book highlights ways that judicatories and congregations are already providing direct service (after-school programs, tutoring, food backpacks), participating in community coalitions of care (with non-profit, higher education, and public service programs and staff), and joining state and regional advocacy campaigns for improved funding, policy, and accountability. Includes an executive summary and discussion guide written by diverse voices within the Episcopal Church, laying theological groundwork while showcasing examples of how partnership between church and school can lift up “education as forming humans” as one way to serve God's mission in our neighborhoods. Contributors include, plus others: –The Rev. Ben Campbell—Micah Initiative in Richmond –The Rt. Rev. Andrew Waldo—South Carolina's LARCUM Bishops' Initiative –Louise Packard—Executive Director, Trinity Boston Foundation –The Rev. Liz Steinhauser—St. Stephen's, Boston –Michael Sarbanes—Executive Director of Community Engagement, Baltimore –Mark R. Warren—Department of Public Policy and Public Affairs, UMass and Kennedy School fellow

The Enlightened Eye Oct 05 2020 Now available from TC Press with a new foreword by Nel Noddings and a new prologue by P. Bruce Uhrmacher and Christy McConnell Moroye, this classic text on qualitative research is ideal for both novice and established researchers. Eisner's seminal work on mind, education, and research explores the ways in which the methods, content, and assumptions in the arts, humanities, and social sciences can help us better understand our schools and classrooms. *The Enlightened Eye* expands how we think about inquiry in education and broadens our views about what it means to “know” with the goal of positively influencing the educational experience of those who live and work in our schools. The text includes examples depicting this type of research and how it can be used to evaluate teaching, learning, and the school environment. Book Features: Provides researchers with ethical frameworks promoting diversity and inclusivity. Establishes connections between qualitative inquiry in our daily lives and its functions in the practice and study of education. Broadens understanding of how we come to know the world. “With enhanced perception, reflection, and imagination, researchers and practitioners are better positioned to work collaboratively toward richer forms of education.” —From the Foreword by Nel Noddings, professor emerita, Stanford University “Elliot Eisner was the most important art educator of his generation, and a true heir to John Dewey. In this splendid synthesis of his original work in the areas of art, curriculum, and education, Eisner presents a carefully reasoned, candid, and eloquent brief on behalf of qualitative forms of educational inquiry.” —Howard Gardner, Harvard University

The New Institutionalism in Education Dec 07 2020 Gives researchers and policy analysts conceptual tools and empirical assessments to gauge the possibilities for institutional innovation. *The New Institutionalism in Education* brings together leading academics to explore the ongoing changes in K–12 and higher education in both the United States and abroad. The contributors show that current educational trends—including the increased globalization of education, the growing emphasis on educational markets and school choice, the rise of accountability systems, and the persistent influence of business groups like textbook manufacturers and test makers on educational policy—can best be understood when observed through an institutional lens. Because schools and universities are organizations that are stabilized by deeply institutionalized rules, they are subject to the enduring problem of substantive educational reform. This book gives researchers and policy analysts conceptual tools and empirical assessments to gauge the possibilities for institutional reform and innovation. Heinz-Dieter Meyer is Associate Professor of Education Administration and Policy Studies at the University at Albany, State University of New York and has also taught sociology and organizational behavior in Germany and France. He is the coeditor (with William Lowe Boyd) of *Education between States, Markets, and Civil Society: Comparative Perspectives*. Brian Rowan is Burke A. Hinsdale Collegiate Professor in Education at the University of Michigan.

Public Policy Praxis Oct 24 2019 Public administration and policy analysis education have long emphasized tidiness, stages, and rationality, but practitioners frequently must deal with a world where objectivity is buffeted by, repressed by, and sometimes defeated by value conflict. Politics and policy are “messy” and power explains much more about the policy process than does rationality. *Public Policy Praxis*, now in a thoroughly revised fourth edition, uniquely equips students to better grapple with ambiguity and complexity. By emphasizing mixed methodologies, the reader is encouraged, through the use of a wide variety of policy cases, to develop a workable and practical model of applied policy analysis. Students are given the opportunity to try out these globally applicable analytical models and tools in varied case settings (e.g., county, city, federal, international, plus urban and rural) while facing wide-ranging topics (starving farmers and the red panda in Nepal, e-cigarettes, GMOs, the gig economy, and opioid abuse) that capture the diversity and reality of public policy analysis and the intergovernmental and complex nature of politics. The fourth edition expands upon its thorough exploration of specific tools of policy analysis, such as stakeholder mapping, content analysis, group facilitation, narrative analysis, cost-benefit analysis, futuring, and survey analysis. Along with teaching “how to,” the authors discuss the limitations, the practical political problems, and the ethical problems associated with different techniques and methodologies. Many new cases have been added, along with clear instructions on how to do congressional research and a Google Trends analysis. An expanded online Teaching Appendix is included for adopters, offering original cases, answers to problems, alternative approaches to case use, teaching exercises, student assignments, pedagogical ideas, and supplemental material directly tied to concepts covered in the text. With an easily accessible and conversational writing style, *Public Policy Praxis* is an ideal textbook for undergraduate and graduate courses in public policy analysis, community planning, leadership, social welfare policy, educational policy, family policy, and special seminars.
