Fourth Progress Report on Inclusion of Enhanced Contractual Provisions in International Sovereign Bond Contract

Mar 29 2020 This paper reports on progress in inclusion of enhanced collective action clauses and modified pari passu clauses as of end-October 2018. The report finds that enhanced CACs have now become the market standard, with only a few issuers standing out from the market trend. Around 88 percent of international sovereign bonds (in aggregate principal amount) issued since October 2014 in the main jurisdictions of New York and England include such clauses. The modified pari passu clause continues to be incorporated as a package with the enhanced CACs, with few exceptions. In line with findings in previous reports, the inclusion of enhanced CACs does not seem to have an observable pricing effect, according to either primary or secondary market data. The outstanding stock of international sovereign bonds without enhanced CACs remains high, with about 39 percent of the outstanding stock including enhanced CACs.

TARGET SNAP 2021 (Past Papers 2005 - 2020) + 5 Mock Tests 13th Edition Apr 22 2022

Enhancing the Effectiveness of Team Science Nov 05 2020 The past half-century has witnessed a dramatic increase in the scale and complexity of scientific research. The growing scale of science has been accompanied by a shift toward collaborative research, referred to as "team science." Scientific research is increasingly conducted by small teams and larger groups rather than individual investigators, but the challenges of collaboration can slow these teams' progress in achieving their scientific goals. How does a team-based approach work, and how can universities and research institutions support teams? Enhancing the Effectiveness of Team Science synthesizes and integrates the available research to provide guidance on assembling the science team; leadership, education and professional development for science teams and groups. It also examines institutional and organizational structures and policies to support science teams

and identifies areas where further research is needed to help science teams and groups achieve their scientific and translational goals. This report offers major public policy recommendations for science research agencies and policymakers, as well as recommendations for individual scientists, disciplinary associations, and research universities. Enhancing the Effectiveness of Team Science will be of interest to university research administrators, team science leaders, science faculty, and graduate and postdoctoral students.

TARGET MH-CET (MBA / MMS) 2022 - Past Papers (2007 - 2021) + 5 Mock Tests 13th Edition Oct 17 2021
